a.

b.

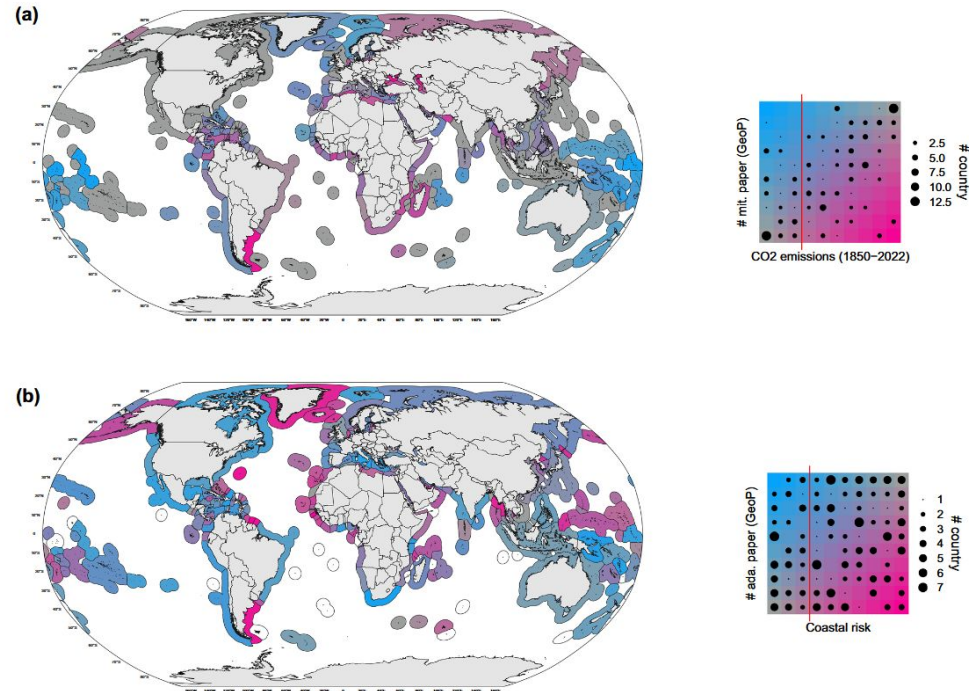

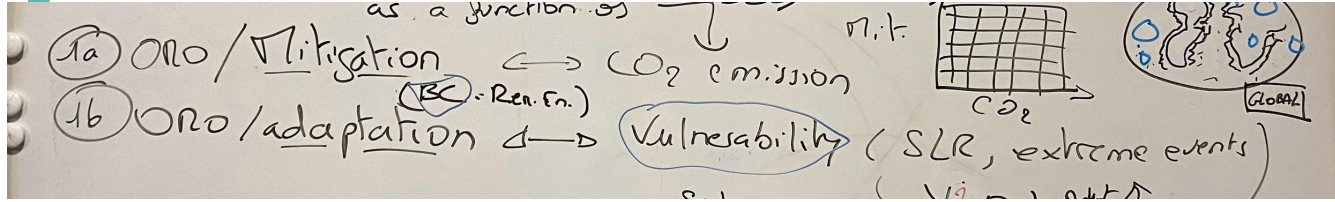

Fig. 6 | Drivers of empirical research effort. Empirical research effort (y-axis on 1850 to 2022⁷⁸, c.f. 4.8 for metric calculations) as an indicator of "historical responsibility"

Storyboarding Activity

Split into sub-groups (research theme).

Task:

- You need to imagine what you need at the end of the process, and work back from that. What figures/key messages do you want to convey (hypothesise)
- Sketch 1 figure on the easel paper/white boards provided that would show an interesting key message/hypotheses for a systematic map.

Goal:

The variables needed to make your figure will ultimately be formalised in your codebook.
